

On October 22nd, 2013 the Tennessee Oversize and Overweight Permitting System(TOOPS) was updated to reflect the following changes:

External Changes

1. When applying for a single trip permit, the following information will now be required:
 - a. Power Unit License Plate State; and
 - b. Power Unit License Plate Number.
2. The following three fields will now be displayed on the permit PDF:
 - a. Power Unit License Plate State;
 - b. Power Unit License Plate Number; and
 - c. Vehicle Identification Number.
3. Size and weight permit information will now be uploaded to CVIEW to allow officers access to permit information at the roadside.
4. A barcode was added to all permit documents to allow law enforcement to scan permits at the roadside.
